

PRODUCT INFORMATION SHEET

Jimi

Vinyl Station

Showcase 200 to 500 records with this sustainably made in Australia from 100% recycled post consumer plastic.

MATERIAL

20mm thick
100% recycled post consumer HDPE plastic (milk bottle lids, shampoo bottle etc)

PRODUCT USE

Facilitates the process of choosing and playing vinyl, whilst introducing a feature piece of furniture in your home

MAINTENANCE AND CARE

HDPE is a durable material. Dust can be removed by wiping with a damp cloth

FIXINGS

Steel screws and PVA glue has been used in construction. Steel screws can be recycled at end of life

WARRANTY

3 years

PRODUCTION

Made in Australia, from recycled HDPE plastic sheets made locally from Australian post consumer waste

WEIGHT

The standard Jimi Vinyl Station is 55 kilograms

CAPACITY

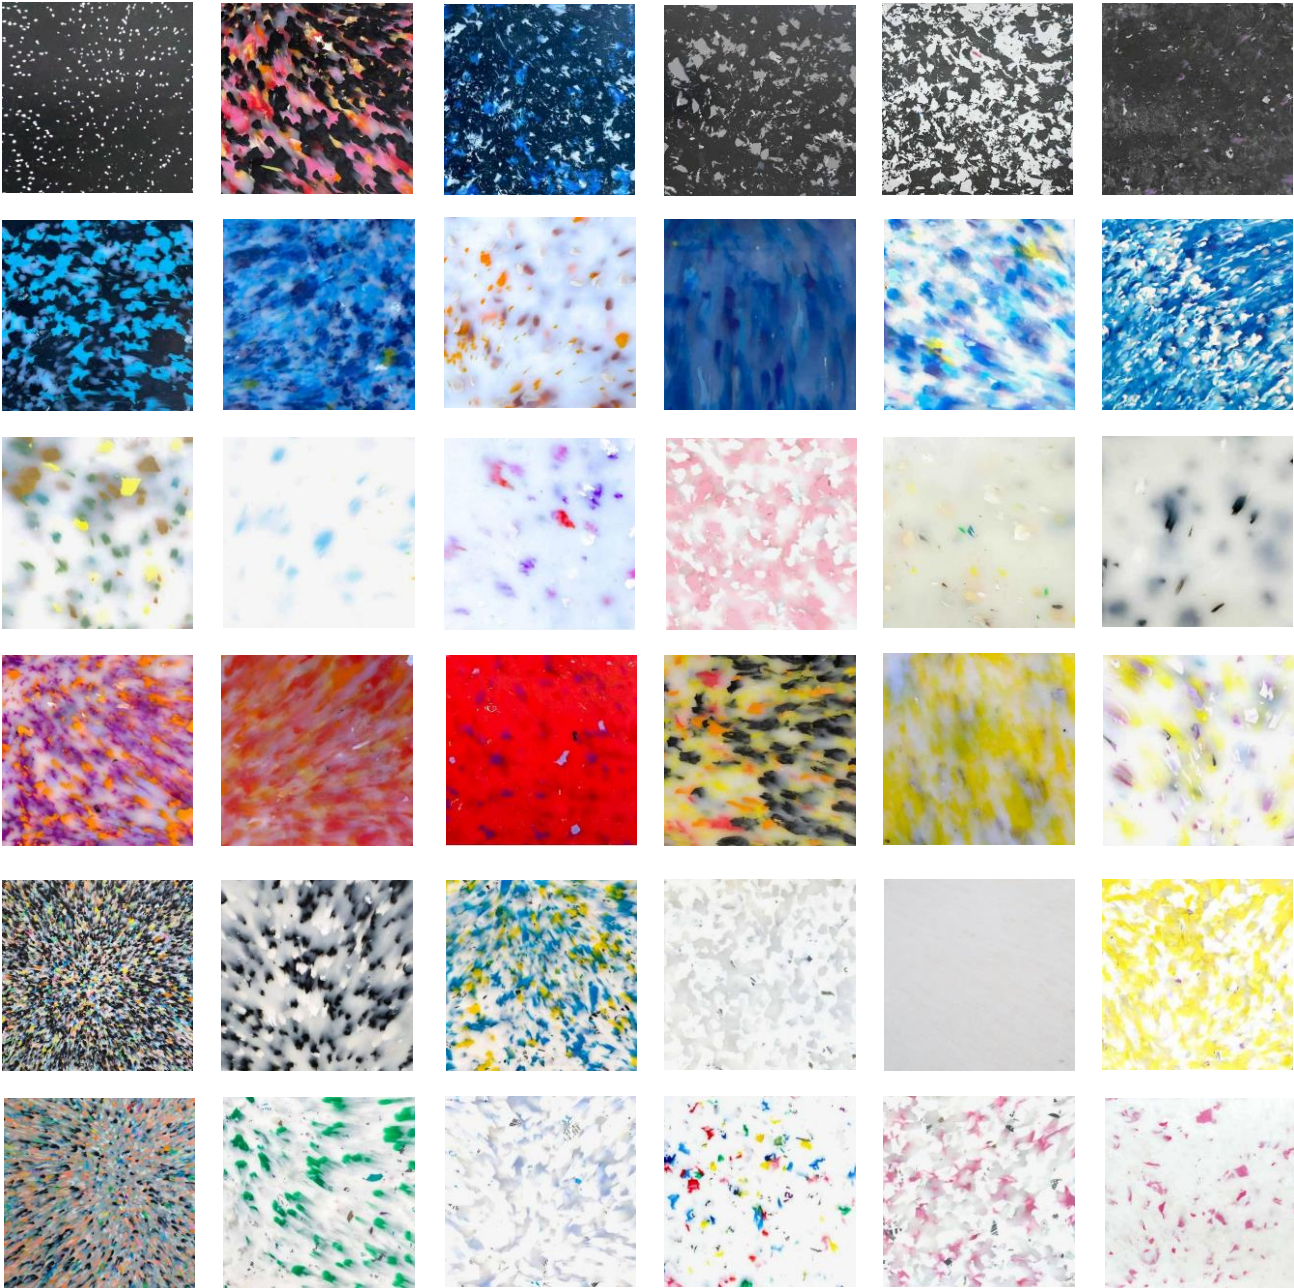

One turntable
200 to 500 vinyl record albums
Two 'flipping' buckets: each hold 50 albums
Option to place bookshelf speakers inside
